

Activities for April 6th - 10th

Literacy:

- Continue to read 30 minutes a day. Read aloud to help with fluency!
- Go on Raz-Kids and read the stories aloud. You can even tape yourselves on this program! Be sure to answer the questions to make sure you are reading for understanding.
- Write a recount of what you've been doing this week.

Numeracy:

- Make flash cards and practice your facts to 9+9
- Count things around the house. You could count lego pieces, toothpicks, spaghetti, macaroni, Q-Tips, marbles, stuffies, leaves etc. Remember putting things in groups of tens is a great way to count larger amounts of things.

You and Your World:

- We have talked about Changes during classtime. Well there have certainly been a lot of changes over the last few weeks! Write about how life is different for you now.
